#### **182 x 46.5 cm**

Electric version : 900 W, Option Hot Air Blowing: +1000 W

Hydronic version: 802 W, Option Hot Air Blowing: +1000 W

### **TECHNICOLOGICAL INFORMATION**

Large towel bar: equipped with hidden fixing device offering a perfect finishdetail in your bathroom. Options of 3 dimensions available (L62xD18cm, L82xD18cm, L102xD18cm).

Olycal® Stone: After 7 years of research and development, Atelier CINIÉR have developed the Olycal® Stone: The olycal stone is crushed at the initial stage of production then restructured in the Cinier workshop following and exclusive patented process allowing heat to be emitted with high efficiency.

The heating element: HYDRONIC model (European standards EN442-2, control by Cetiat laboratory) or ELECTRIC model (CE electricity).

Saving energy: while adapting the power of your radiator to your real needs, CINIÉR thermostat can reduce your energy needs up to 20%.

Smart Hot Air Blower: quietly and efficiently, it achieves the rise of temperature in a very fast time(+ 2/3 ° C in less than 10 minutes in your bathroom). During the off-season, Smart Hot Air Blower will also heat the room very quickly without the hydronic version boiler on.
