Radiator available in 1 Dimension :

130 x 50 cm

Electric version : 650 W, unavailable on boosted version.

Hydronic version: 579 W, unavailable on boosted version.

TECHNICAL INFORMATION

Olycal® Stone: After 7 years of research and development, Atelier CINIER have developed the Olycal® Stone: The olycal stone is crushed at the initial stage of production then restructured in the Cinier workshop following an exclusive patented process allowing heat to be emitted with high efficiency.

The heating element: HYDRONIC model (European standards EN442-2, control by Cetiat laboratory) or ELECTRIC model (CE electricity).

Saving energy: while adapting the power of your radiator to your real needs, CINIER thermostat can reduce your energy needs up to 20%.
